The Office of the Dean of Students provides assistance to University of Iowa students experiencing crisis and emergency situations. These situations may include: hospitalization; medical emergencies or long-term illness; mental health concerns; chronic conditions; death of a family member; natural disasters - fire, tornado, and displacement; off campus living concerns; or unexpected events or challenges.

We know that students may experience a variety of challenges during their college career. The Office of the Dean of Students is a central location that provides coordinated efforts along with campus partners to assist students with overcoming challenges to be successful and continue towards graduation.

Student Care and Assistance (SCA) works closely with the Early Intervention Team (EIT) and the UI Threat Assessment Team (TAT). The SCA Director co-directs the Early Intervention Team with the Director, Academic Support and Retention. The 2013-2014 Early Intervention Team Executive Summary is included at the end of this report.

The SCA Director also collaborates closely with the Threat Assessment Team in managing high risk student cases.

**SUMMARY**

SCA was created in July 2013 with the hiring of a staff member dedicated to providing support and assistance to students experiencing crisis or emergency situations. Between July 23, 2013 and May 31, 2014, the Office of Student Care and Assistance provided support and assistance to:

- 284 students including undergraduate, graduate, professional, and non-degree/non-enrolled (does not include Title IX cases)
- 45 of those total cases were joint student conduct and student care cases (necessary to involve both offices to address the concerns of the student)

**SCA Case Numbers**

| Student Care and Assistance | 239 |
| Joint Care and Conduct      | 45  |
| **Total Cases**             | 284 |

Students of concern engage with SCA in different ways including meetings, various communications, consultations with faculty/staff, discussion on EIT or TAT, or a combination of means. The numbers below overlap due to the type and level of engagement with a student of concern.

**Students of Concern**

*Share a Concern Reporting Form*

In March 2014, the Office of the Dean of Students created a web submission form to allow individuals to report concerns online or anonymously.

- 4 reported concerns
- 1 anonymous concern

*Quick Guide for Helping Students:*

Many campuses around the country created an assistance folder with helpful information that is distributed to campus faculty and staff. With this best practice in mind, in fall 2013 we adapted similar folders used on other campuses for The University of Iowa, and created a “Quick Guide for Helping Students.” Our goal was to make it as easy-to-use as possible for faculty and staff who would not have had some of the specialized training in assisting students. The folder is also available online or in a printable PDF version on the Office of the Dean of Students website: [http://dos.uiowa.edu/assistance/quick-guide-for-helping-students/](http://dos.uiowa.edu/assistance/quick-guide-for-helping-students/).

- Fall 2013 - mailed to 8,108 staff and faculty members
- Spring 2014 – mailed to 197 new staff and faculty members
- Graduate teaching assistants received an email with a link to the online and printable PDF versions of the *Quick Guide*
